PRIVATE STUDENT RESIDENCES

They offer the advantages of being well equipped and of providing a number of services. A 9 to 12 months minimum stay is often a requirement.

APARTMENT-SHARING

Known in French as «colocation», this type of accommodation consists of sharing an apartment (or a house) with other people and thus split the rent and charges. Look for ads on specialized websites.

HOMESTAY

People who offer rooms in their apartment or house are generally more flexible about the guarantees requested, but you will not be entitled to government housing assistance. In some cases, instead of paying rent, you will be asked to provide small jobs in exchange (childcare, cleaning, etc.). If you choose this solution, define the tasks and the expected number of hours clearly from the start as there are no regulations on the matter.

INDIVIDUAL APARTMENT

You can rent an apartment directly from its owner or through a real estate agency to which you will have to pay fees. You will need to provide guarantees, sign a lease and subscribe with an energy provider. There are three types of rentals: empty, equipped or furnished.
