GETTING TO UPEC 29
About UPEC

Since its foundation in 1970, Université Paris-Est Créteil (UPEC) has established itself as both a locally grounded institution and a globally connected university.

A major multidisciplinary and vocational university, located less than 30 minutes from downtown Paris, UPEC serves a population of over 38,000 students and offers several programs taught in English.
The organization of studies follows the European Higher Education Area (EHEA) three-cycle system, usually referred to as the «LMD» system in French, and is based on the European Credit Transfer and Accumulation System (ECTS).

Training is provided at three levels: undergraduate (Licence), graduate (Master) and PhD studies (Doctorat).

In addition to the regular study offer, there are several opportunities to study in English at UPEC, from single courses to entire programs. They enable students to pursue a degree with a strong international dimension while living in France.

Vaccinology
from basic immunology
to social sciences of health  M2

FIELD OF STUDY
Life Sciences

MAIN SUBJECT AREAS
♦ Infectious diseases and Vaccinology
♦ Fundamental immunology
♦ Immunotherapy
♦ Immune responses to vaccination
♦ Preclinical models
♦ Innovation in vaccinology
♦ Clinical assays
♦ System biology
♦ Social and political issues of vaccination

DEGREE OBTAINED
♦ Master’s degree
♦ Graduate program – Master 2

DURATION 1 TO 2 YEARS

CREDITS 60 ECTS/Year

The MSc in Vaccinology is available to initial and continuing education students. The Master’s program provides 2 options:
♦ An initial training (one year), including validation of teaching units (30 ECTS) and the accomplishment of a research project with a final presentation to a Jury – oral and written report (30 ECTS). The practice internship will take place in host laboratories.
♦ A non-academic training including validation of teaching units (30 ECTS) and a literature report (30 ECTS). This option could be accomplished in two years.
